

## Help HSG Help the HD Community Receive Better Care

Dear EHDN Member

HSG members are world experts in caring for individuals and families impacted by Huntington disease. HSG wants to share our knowledge with as many health care professionals as possible so families can more easily find care in their own communities. The popular CME4HD program provided at HSG's annual event is now available [online](#), anytime, anywhere - for **FREE**. This program was planned and implemented by the North American Center for Continuing Education, LLC (NACCME) and the Huntington Study Group (HSG). This program was made possible, in part, by an independent educational grant from TEVA Pharmaceuticals.

The entire program provides 3.75 CME/CNE credits (with reciprocity for nurse practitioners) - for FREE!

We need your help to spread the word about CME4HD online in the medical community so that, ultimately, HD patients can receive better care in their own communities between subspecialty appointments. If you refer to the program the largest number of professionals who complete it by June 30, 2018, we will provide you with a transferrable scholarship to attend [HSG 2018: Unlocking HD](#) in Houston. This includes airfare (up to \$500 domestic, \$1200 international), two nights in [Hotel ZaZa](#), and a travel stipend. Referrals can be made by anyone in the HD community, including HSG members, family members, industry partners, and advocates. You may choose to transfer the scholarship to another attendee. Those who complete the program will also be eligible for a scholarship, chosen at random.

For more information, click [here](#). (Scroll to the bottom of the page for more details about the referral program.)

Thank you,

Huntington Study Group
